Joey

AGM Starting at \$9,600 | LFP Starting at \$12,100

Under-cab mounted. Heating & cooling. The original under-cab unit in stainless steel.

Koala

AGM Starting at \$9,800 | LFP Starting at \$12,300

Rear wall-mount. Great for cabs without under-chassis space. Heating & cooling.

Kookaburra

AGM Starting at \$7,200 | LFP Starting at \$9,700

Roof-mounted. Heating & cooling. Great for Volvo or sunroof cabs.

Possum

AGM Starting at \$6,400 | LFP Starting at \$8,900

A low cost cooling only system that can be mounted under the cab, on the rear wall or on the roof top.

Battery & Backcharger Guide

Capacity (kWh)	Normal Conditions	Hot Conditions
5	~10 hrs	~8 hrs
6	~12 hrs	~10 hrs
10	~20 hrs	~16 hrs
12	~24 hrs	~20 hrs

For northern and hotter climates, we recommend LFP 10kWh+ battery systems for reliable all-day runtime. LFP (Lithium Iron Phosphate) batteries deliver safer, longer-lasting, and more reliable power.

Outback Edition – 12kWh with Backcharger
Includes our **Backcharger technology**, so you'll never be stranded with a flat truck battery. The perfect choice for extended trips and remote operations where reliability matters most.

** Prices shown reflect the base package with standard battery capacity and may increase with optional upgrades or additional features. Freight is calculated based on delivery within NSW. All prices are exclusive of GST.

1hr maintenance every 2 years

Up to **24hrs** runtime

95% fewer emissions vs diesel

**This is a guide only and actual fit may vary. Please reach out for further detail and a discussion
